

Patch cable, M12-A to RJ45, CAT7, green, 3 m, 5 m, 10 m

Description

The KABM12ETHxx connectors have been developed for exclusive use in conjunction with the ViTAM series panel PCs. The cables are available in lengths of 3, 5 and 10 meters. The M12 connector is connected to the ViTAM panel PC, the RJ45 connector is used to connect to an Ethernet network. The cables are IP67-certified on the M12 connector and IP20-certified on the RJ45 connector. To lock the cable connector to the device connector, the threaded ring is tightened "hand-tight" (approx. 50 cNm).

Product details

Execution:	M12 / RJ45
Number of poles:	8
Locking mechanism:	Screw M12x1 / snap
Protection class:	IP67 (M12-side) / IP20 (RJ45-side)
Mechanical service life:	> 100 mating cycles
Temperature range:	-25°C to +85°C
Customs tariff number:	85444290

Products Order no.

KABM12ETH3	M12-A to RJ45, shielded, L=3m
KABM12ETH5	M12-A to RJ45, shielded, L=5m
KABM12ETH10	M12-A to RJ45, shielded, L=10m
