Description

Rod antenna

The WLANANT90 can optionally be supplied with a connection cable for WLAN devices. It can be mounted either on the wall or on a pole. The gain is 9 dBi.

When combining your device with this antenna, please ensure that the maximum permissible transmission power of 100 mW is not exceeded.

Product details

Interfaces:	1x RP-SMA connector
Cable:	1.5 meter RG58U
Frequency range:	2.4 to 2.5 GHz
Antenna gain:	9 dBi
Antenna gain with cable:	6.4 dBi
Impedance:	50 Ohm
Art:	Rod antenna
Weight:	520 g
Dimensions:	Height: 420 mm
Operating temperature:	-20 °C to +60 °C
Assembly:	Wall or pole mounting

Products Order no.

WLANANT90	Antenna for wall or mast mounting with RP-SMA connector 2.4 GHz@9 dBi w. 1.5 m cable
